Provide any professional or technical experience:

I am experienced professionally and technically when it comes to usage of online tools such as Google Docs. I have used programs such as these

various times in school and with outside personal projects. Not to mention, platforms such as Canva have also helped me present and test ideas visually. I am strong when it comes to putting myself out there and talking to new groups of people. I'm always willing to try new things and be a leader.

Why are you interested in serving on this commission?

I am interested in serving on this commission because I would like to help the community I've been a part of for so long. I want everyone to feel as if they are being heard as a person, and I feel I can do that. Becoming more involved in my community would allow me to leave a lasting impact on others. I not only would like to grow as a person if given this opportunity, but I would also like to grow my community. This growth, the change, is important because it enables the people of the community to change for the better, all while I myself also change for the better.

Please list and briefly describe any other community activities or organizations in which you participate.

Different activities I have participated in include my junior high leadership program for two years, the AVID program for three years, and volleyball for two years. In leadership, scholars are able to grow as people as they help other scholars enjoy their middle school experience. In AVID, scholars challenge themselves with college preparatory work and build a community, one that I am again joining in high school. With volleyball I have pushed my body and learned to accept difficult things, such as making mistakes is okay. I am forever grateful for all

these wonderful opportunities I have been provided with.

I am currently serving in student government at my school, Queen Of All Saints.

WHY ARE YOU INTERESTED IN SERVING ON THIS COMMISSION?

I feel that I have experience in Student Government and I can make a positive impact on the Pittsburg youth community. I have also participated in many Pittsburg sports programs and I feel that I can bring valuable insight to improving these programs. Additionally, with the population increasing in Pittsburg, we can improve our sports program and other

extracurricular offerings to be more competitive to our neighboring cities. We need to conduct surveys at community events to find out what the people of Pittsburg want for their youth. In addition, I would like to learn more about what Pittsburg is doing for their community.

PROVIDE ANY PROFESSIONAL OR
TECHNICAL EXPERIENCE:

I have over 10 years of experience in graphic and UX design, with a background in communication design from CSU Chico. I currently work as a Residential Counselor, where I support individuals in a structured care environment and maintain detailed documentation and reporting. I also have experience in hospitality management as a Front Desk Supervisor, which required strong organizational skills and accountability to both leadership and the public. I am currently

pursuing training in data analytics, which has strengthened my ability to read and interpret reports, budgets, and data-driven documents - skills directly relevant to the oversight responsibilities of this committee.

WHY ARE YOU INTERESTED IN SERVING ON THIS COMMISSION?

Pittsburg is my community, and serving on this committee is an opportunity to help ensure those funds are put to work in ways that reflect the needs and priorities of residents like me. Oversight committees only work when they include people who are genuinely invested in the outcome, not just as professionals, but as neighbors. I want a seat at the table so that everyday residents have a voice in how our city's resources are tracked and spent. I believe my professional background gives me the tools to engage meaningfully with financial reports and accountability processes, while my perspective as a community member keeps that work grounded in what actually matters to the people here.

PLEASE LIST AND BRIEFLY DESCRIBE ANY OTHER COMMUNITY ACTIVITIES OR ORGANIZATIONS IN WHICH YOU PARTICIPATE.

I have participated in community service activities in the Pittsburg and Antioch area in the past and am actively working to re-engage with local organizations and initiatives. Serving on this committee is part of that effort -- I want to move from being a resident who cares about my city to one who is actively contributing to how it functions.
